

Co-Founder (W/M/D) in Business Development

19. July 2021

Working field

- You are taking ownership of business development.
- You will develop and execute the (public) funding and fundraising strategy of RooWalk as an early stage StartUp.
- You collaborate in shaping the idea and in preparing a market entry strategy.
- Together we will develop a MedTech StartUp from scratch up to a relevant company.

Requirements

- You have professional experience in business development, company development, public funding, and consultancy of startups, ideally in the area of technology & healthcare. Experience in a fast-paced environment is a big plus.
- You know about pro's and con's of startup funding strategies, best practices regarding funding rounds, do's & don'ts in distribution of shares, and exit strategies.
- You love to work independently, you have entrepreneurial drive, willingness to take responsibility, high ambition and the ability to achieve goals collaboratively throughout the ups and downs of a founding phase.
- You have an analytical mindset paired up with creativity and you are not afraid of bureaucratic work.
- You are interested in technology and healthcare, both personally & professionally.
- You are a great communicator and team player across national borders, society, and industries and you enjoy helping others ;)

What we offer

- We're offering you to build up a MedTech StartUp from scratch that is helping people!
- With us as a family motivated Co-Founders team of engineers, you're free to develop yourself, to implement your ideas and to make mistakes.
- We're providing a fixed salary for at least 12 months within the framework of the EXIST funding program.
